

Saturday, November 8th; 6:00 PM - 8:30 PM; Atherton Hotel

PENNSTATE

College of Agricultural Sciences

Bringing the World to Your Classroom: Frameworks for Globalizing Your Curriculum

Learning Goals:

1. Interpreting individual assessment of educator/student global competency: Intercultural Development Inventory
2. Reviewing frameworks for internationalizing your instruction
3. Collaborating with quality instructional materials including but not limited to lesson and unit plans that utilize the teaching and learning strategies discussed during the symposium.
4. Engaging in innovation: Space for participants to explore global agriculture education innovation, developing collaborative research projects and/or creating future independent study courses/topics or instructional programming.
5. Exploring additional resources for global learning
