

Agritourism in New Mexico

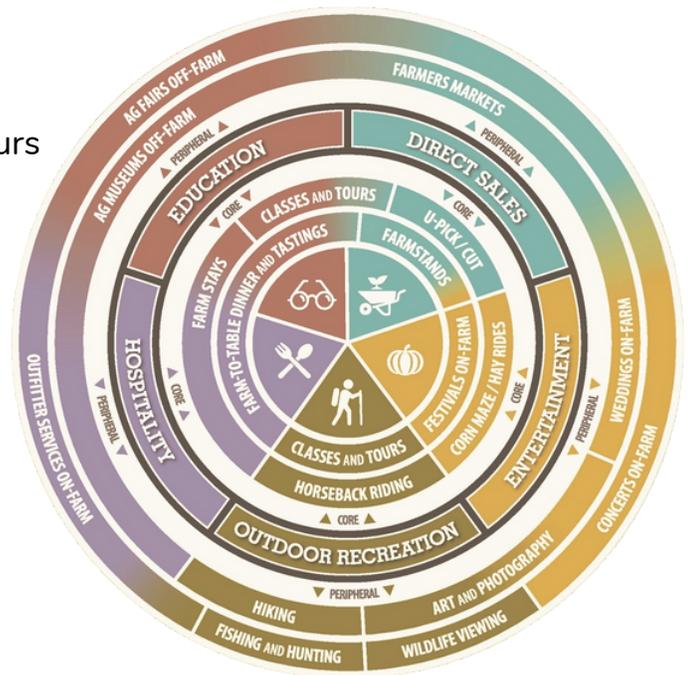

New Mexico has 25,044 Farms

Agritourism activities fit within five main categories:

- **Direct sales:** consumers buy directly from farmers
- **Education:** learning experiences, such as school tours
- **Hospitality:** includes farm stays, on-farm dinners
- **Outdoor recreation:** outdoor farm experiences
- **Entertainment:** on-farm activities such as festivals

According to the 2017 Agricultural Census, New Mexico has **1,899 Farms offering Direct Sales or Agritourism**

- **1,434 Farms with only Direct Sales**
- **416 Farms with only Agritourism**
- **49 Farms with both Direct Sales and Agritourism**

Each of these three subsets of farms is detailed on its own page in the remainder of this information sheet.

Data source: 2017 Census of Agriculture data. Special data request. Contact: Claudia Schmidt, Penn State, cschmidt@psu.edu. In the questionnaire for farms and ranches, two questions were included that pertain to agritourism (USDA NASS Census of Agriculture 2017):

(1) "Report the gross dollar amount received before taxes and expenses in 2017 for income from agritourism and recreational services, such as farm tours, hayrides, hunting, fishing, etc."

(2) "How much was received in 2017 for the food produced and sold directly to consumers: farmers markets, on-farm stores or farm stands, roadside stands or stores, u-pick, CSA (Community Supported Agriculture), online marketplaces, and so on? Include edible agricultural products for human consumption. Exclude nonedible products such as hay, cut flowers, Christmas trees, nursery products, and so on; commodities produced under production contracts; products purchased and resold."

Please note that NASS gets information on up to 4 "producers" per farm, so the summed number of producers exceeds the number of farms. The three categories are mutually exclusive as presented here. In the publicly available census data the number of farms receiving income from agritourism totals 465, the category of farms receiving income from direct sales totals 1,483.

New Mexico

1,434 Farms with only Direct Sales

Most operators are full owners

Farms with direct sales sell a variety of products (top four)

Most farms are more than 10 years old

The largest proportion of farmers are 55-64 years old

43.6% of operators are female

78.5% of farms are less than 50 acres in size

37.8% of farms make less than \$10,000 annually from direct sales

New Mexico

416 Farms with only Agritourism

Most operators are full owners

Farms with direct sales sell a variety of products (top four)

Beef cattle

Diversified livestock

Diversified crops

Sheep and goat

Most farms are more than 10 years old

The largest proportion of farmers are 55-64 years old

36.2% of operators are female

18.5% of farms are less than 50 acres in size

20.3% of farms make less than \$10,000 annually from only agritourism

New Mexico

49 Farms with both Direct Sales and Agritourism

Most operators are full owners

Farms with direct sales sell a variety of products (top four)

Beef cattle

Vegetable and melon

Floriculture

Fruit and tree nut

Most farms are more than 10 years old

The largest proportion of farmers are 65-74 years old

46.2% of operators are female

34.7% of farms are less than 50 acres in size

17.3% of farms make less than \$10,000 annually from both agritourism and direct sales

Agritourism in New Mexico

This work was supported in part by the United States Department of Agriculture, National Institute of Food and Agriculture (NIFA) under project # 2020-68006-31683. Partial funding is provided by the Agricultural Marketing Resource Center (AgMRC), located at Iowa State University, www.agmrc.org. AgMRC is a national website dedicated to providing information to producers and service providers on value-added agriculture businesses. This material is based upon work supported by the National Science Foundation under Grant No. 2122374. This work is also supported in part by the Pennsylvania State University and NIFA Multistate/Regional Research and Extension Appropriations under Project #NE2249.
