

Perry County, Pennsylvania Community Profile
Demographic, Educational, and Industrial Breakdown

This publication is based on information from the U.S. Census Bureau and has not been analyzed for trends or impacts. Rather, the data shown here is to be used for community discussion, development, and planning.

Table 1. Sex and Age Profile, 2010 Census

Sex and age are the two most utilized demographic identifiers. Table 1 is a simple break down of the number of people in each given age cohort, and the representative percentage of that cohort. The male and female populations are shown in the bottom, with their representative percentages. Median ages have no percentage since they are an average.

Table 4. Living Relationships, 2010 Census

Living relationships refer to how the population in a community lives amongst each other. These groups are divided amongst those in households, those that are institutionalized, and those that are non-institutionalized. Those institutionalized refer to those that are in an institution of sorts, such as a prison or old age home. Non-institutionalized population refers to those that are neither in a household nor in an institution.

Table 8. Employment by industry, 2012 American Community Survey

The population breakdown by industry separates all those in the working population, 16 years and above, into the industry they currently work in. The Census Bureau uses a consistent methodology to determine the industry classifications into which employees are assigned across the country. Those that are unable to release information due to disclosure complications are due to the low numbers of industries in that sector, and potential for breaching privacy.
